02 Bluetooth instruction

Where to get the app:

Please Search " Hayat Secret " in Google Play or App Store.

Note:

1. Please make sure that the Bluetooth function is turned on;
2. Please make sure that the location function of the mobile phone is turned on.

Consumption: This value is calculate based on one hour of continuous machine work with 13 mPa.s aroma oil of our company. But aroma oils with different viscosities have varied consumption rates, you can calibrate it via app.

Aroma oil: The amount of aroma oil added to bottle.

Remaining: This refers to how long the aroma oil can be used based on consumption, aroma oil, grade, and working periods.

Amend password

The image shows two screenshots from a mobile application. The left screenshot is titled 'Device control' and shows a 'Set' button, 'About' button, and version information (PCB, Equipment, APP). A 'Change password' button is highlighted with a downward arrow pointing to a second 'Change password' screen. This second screen has input fields for 'The new password' and 'Confirm password', and a 'Change password' button. The right screenshot is titled 'Working period setting' and shows a table for 'Start working time' and 'Stop working time' with digital time pickers. Below the table are 'Repeat' day selection buttons (Mon-Sun) and 'Concentration grade' (7) and 'Custom Stall' options with a table of work and stop times. Annotations with arrows point to these elements: 'Slide up and down to adjust' for the time pickers, 'Select the day' for the Repeat buttons, and 'Select grade' for the Concentration grade buttons.

If you forget the password, please press the long press the ON/OFF button for 3s to restore factory setting. The factory settings password is 8888.
